Frequently Asked Questions

What is your Wedding Photography Style?

My style is a combination of photojournalism, fashion, and traditional wedding photography. I seek to tell the story of your wedding day in an emotionally compelling way. I have individual consultations with all my wedding couples to find out exactly what type of photography they like. Don't worry if you don't know exactly what style you want. I will give you a great variety of images that tell the story and capture the beauty and emotion of your wedding day.

How much do your Packages Cost?

My wedding photography packages range from \$1,895 to \$4,345 for weddings in Western Washington. Destination Weddings start at \$3,345 plus travel expenses and go up from there. The price range depends on the amount of photography time as well as the products that you would like in your package. Additional items like albums, coffee table books, DVD slideshows, engagement sessions, retouched images and print credit are available either in a package or a la carte.

What do your Packages include?

All wedding photography packages include Digital Negatives, Online Proofing and Online Slideshow for viewing for your friends, family and yourself. Basic wedding coverage starts at 6 hours and goes to unlimited time. Wedding Albums, DVD Slideshows, Two Photographers and Engagement Sessions are available with certain packages or can be added on to any of our packages.

How do I choose the package that's right for me?

Finding the package that's right for you depends on several factors. How much photography time do you need? Do you want more than one photographer? Are you interested in wedding albums or a DVD slideshow? Do you want to have an engagement session? At Rubin Photography we will do our best to help you find the perfect wedding

photography package. If one of our packages doesn't suit your needs we are happy to customize a package to make it a perfect fit for you and your budget.

What is a DVD Slide Show?

The DVD Slideshows are one of our most requested wedding products. I take the best 300-400 images from your wedding and set them to your favorite music. The DVD has different chapters, for example: Getting Ready, Formals, Ceremony, and Reception. I zoom and pan on these images and edit them to the music to make a beautiful and emotional way to remember your wedding day. They make great gifts for parents, family and friends.

How many images do you take at a wedding?

The number of images taken at a wedding depends on the length of photography coverage. On average I shoot anywhere from 1000-2500 images. I edit them down and show you the best 750-1200 images that tell the story of your wedding day. I capture everything from the smallest detail of your flowers and invitations to all of the day's events.

After my wedding how long until I see the images?

Five to seven weeks or sooner after your wedding day the images will be available for viewing online. Albums and DVD slideshows are available 6-8 weeks after you place your order.

Do you shoot more than one wedding a day?

No, I only shoot one wedding per day so that I can focus on capturing your day perfectly.

Do you have backup equipment?

When I photograph your wedding I bring lots of backup equipment. I am always prepared with everything from backup cameras to lens and flashes. So you can rest assured that I will capture every moment of your wedding, even if there is a problem with an item of equipment. (It happens very rarely but part of being a professional photographer is always being prepared.)

Do you shoot digitally?

I shoot with top of the line Canon digital equipment. Shooting digitally provides exceptionally high quality images while allowing room for creativity both in shooting your wedding and in working with the images in postproduction after your wedding day. I spend an average of 40 hours per wedding working and perfecting the images.

Do you shoot in Black and White or Color?

I shoot all images in a format that allows me to convert images to black and white, sepia and color after the wedding. Feel free to let me know what percentage of images you would like in black and white, sepia and color.

What do your past clients say about your wedding photography?

Thank you so much for the amazing quality of our pictures, they turned out GREAT! Your attention to every detail was outstanding. We received so much positive feedback from our guests about your professionalism. You were there for every important moment of our day, without causing any distraction to our guests. We love our pictures because they captured memories and moments beautifully. Thank you for being great to work with.

Sincerely, Anthony and Nicole

Dear Alex,

Your level of professionalism and enthusiasm was spectacular, never missing a beat. Your product spoke for itself. Thank you so much for providing us with memories of that day that will last us a lifetime. I would recommend you to anyone looking for a photographer with an artist's eye and an incredible personality.

Greg and Ara Clark

Dear Alex,

Thank you for doing such a wonderful job with our wedding photos, and especially with the DVD! Because of your professionalism and attention to detail, we had a seamlessly, fantastic photography experience. We are very thankful and appreciative of your impeccable customer service, and all the work that went into creating the amazing DVD of our photos. That is a truly special way to capture our wedding photos, and I know that we will cherish it along with our beautiful wedding albums, for a very long time. Thank you for making our wedding a masterpiece.

*Sincerely, Stephanie & Matthew Neal
Pittsburgh, PA*
